EMPOWERING MINDS FOR  
TOMORROW'S WORLD

## ABOUT US

At Calfa Education Service we understand that pursuing education abroad comes with many challenges. Our team of advisors have years of experience guiding students from application to assimilation. Whether you need help with scholarships, admissions, visas, housing, or adapting to a new culture - we are here to support you every step of the way in China. We take pride in developing strong partnerships with universities in China to match students

strengths. However, our top priority will always be the well-being and success of each individual student. In addition to advising services, we strive to foster a sense of community among our students. Through social activities, alumni networking events, and crisis support, students will have a solid support system as they follow their dreams thousands of miles from home. Beyond guidance, our vision is to provide opportunities for personal and professional enrichment. Internships, career fairs, mentorship programs and leadership initiatives will help students gain invaluable experiences to accelerate their growth.

Headquartered in China, our international team reflects the diversity we champion. With representatives based in Africa as well as China, we are well-equipped to understand different perspectives and cater to varied needs.

At Calfa Education Service, we don't just open doors - we stay by your side as you walk through them. Join our community and let us partner with you on your educational journey

## Our Vision

Our vision is to become the premier global education guidance organization, trusted by students and institutions worldwide to empower lives and open doors to international opportunities.

## Our Mission

To empower students from all corners of the world to realize their educational dreams and build a brighter future. Through compassionate guidance and expertise, we help navigate the path to scholarships and secure placements at top universities abroad, especially in China. Our goal is to unleash each student's potential, open doors to personal and professional growth, and develop the leaders of tomorrow.
